

### THIRD YEAR BLOCK DIAGRAM

Month/4wk	1	2	3	4	5	6	7	8	9	10	11	12
Experience or rotations	Research*	Research*	PEM*	Research*	VAC	Research*	PEM*	Research*	PEM*	Adult ED*	Research*	Research*
Duty Hours	40/8	40/10	40/10	40/10	0	40/8	40/10	40/10	40/10	40/10	40/8	40/10

\*According to the program requirements, each fellow is required to have 12 months in an ED caring for patients 21 years old and younger for full spectrum pathologies. Counting the above months of PEM = 10 months. However, the ED shifts assigned in research months are in PEM and they add up to another two months.

- PEM = Pediatric Emergency Medicine
- ED = Emergency Department
- PICU = Pediatric Intensive Care Unit
- VAC = Vacation
- EMS = Emergency Medical Services
- A = Administrative (may include duties such as performing a quality review project with the associate ED director, presenting at and attending a hospital peer review committee, specific meetings to attend with the ED director, conference attendance, and others).
- All research months have a small number of ED shifts (6 or less) and all fellows are expected to work on their research throughout the year, even if not on a research month.  
Fellows only have in house calls on PICU and Trauma. All other months either represent shift work only, or are call-free, unless the fellow chooses to spend extra time on call during elective or orthopedic months.
